-----------------------	--

WEB MASTER'S REPORT	
---------------------	--

GENERAL BUSINESS	
------------------	--

The club welcomed John and Deb from City West Yamaha, the new owners of City West Yamaha. They have a good range of all types of bikes and are working on building up their range of accessories. Servicing is available for all brands and ages of bikes and they have a full range of tyres in stock with an emphasis on Dunlop and Michelin. Supplies of new Yamahas have not been affected by the recent tsunami in Japan however some suppliers to the motorbike manufacturing industry such as K&M had their factories wiped out so there may be a flow on effect eventually. Deb and John are offering 5% discount to Ulysses members and 10% discount for the first twelve months after purchasing a new bike.

The Ulysses International Liaison Perry Stevens gave an interesting talk about the spread of Ulysses clubs across the globe.
